Respected sir

My BTP is titled "Thermal Management of PV solar panels" under Dr.Ritunesh Kumar.

My BTP entails the following:-

1)It is related to designing a spray cooling system to improve the efficiency of solar power generation for which cool tap water would be required that would be circulated in an open loop with a sump at the end to collect the output water.

2)Also a data logger instrument would be used to record dc voltage,dc current and temperature of the solar panel.

Kindly provide the Formal verification Mail confirming my participation in the BTP for my resume.

Thanking You

Jyotirmay Mitra

(Btech ME 4th Year)

It is to confirm that Mr. Jyotirmay Mitra is working under my supervision for his B.Tech project entitled "Thermal Management of PC solar Panels- an experimental study". For any further information, I may be contacted at ritunesh@iiti.ac.in. I am currently working as a faculty member in Mech. Engg. Dept. of IIT Indore.

Thanks & Regards,
Dr. R. Kumar
